Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the drawings must show that corner 23 is actually lower than the other three corners of the support tray or the feature(s) must be canceled from the claim(s). In addition, the drawings must show that the adhesive applicator is integrally incorporated into the duplexed printhead assembly. Currently the drawings show them as two separate devices. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: 20'. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities:

Art Unit: 3653

1) On page 5, lines 19 and 20 the leading edge of a page is discussed and is referred to with both numbers 27 and 28. The reference number for each feature discussed should remain consistent throughout the specification.

2) On page 6 and 10 features 16', 16'', 16''', and 20'' are discussed, however a 3 is used instead of a '. Consistent labels should be used between the specification and the figures.

3) On the last line of page 8 reference number 23 is used when discussing a wall. However, in the figures and previously in the specification reference number 23 was used to refer to the lower corner of the support tray. Reference numbers should remain consistent throughout the specification.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-22 are allowed.

The independent claims 1 and 11 both claim a page binding device for binding pages that includes an adhesive applicator for applying a two part adhesive. After an extensive search of the prior art the examiner was unable to find a reference which teaches the use of a two part adhesive and applies it in the manner claimed by the applicant. As a result the examiner has found that claims 1 and 11 and their dependent claims are allowable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaitlin S Joerger whose telephone number is 703-305-8503. The examiner can normally be reached on Monday - Friday 9-5.

Art Unit: 3653

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald Walsh can be reached on 703-306-4173. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
